

FOREIGN BANKERS' ASSOCIATION

Initiated in 1993 by a number of international leading banks with establishment in the Netherlands, the FBA is the voice of foreign banks in the Netherlands. The FBA connects its 50 members of foreign banks and financial institutions with the Dutch financial market, and furthermore strengthens the ties that link the Netherlands to the global financial community.

OUR ROLE

- Promote dialogue, partnership, interaction and inclusion in the financial ecosystem
- Serve member banks in their pursuit of financial growth and to ensure transparency and equal opportunity
- Foster international cooperation within the financial services industry
- Act as a platform for information, knowledge exchange and network opportunities

WHO WE ARE

The FBA has been serving the interests of foreign banks with industry stakeholders since 1993. As a network organisation, we ensure that the views of our members are represented to Dutch and European legislatures, regulatory and supervisory bodies and financial services organizations. Today, the FBA serves approx. 50 international banking group members operating in the Netherlands. They provide a wide range of financial services through their branches, subsidiaries, representative offices and cross-border services. All of these efforts create employment opportunities and enhance the diversity of the Dutch financial landscape.

WHAT WE DO

We engage in dialogue with regulators, standard setters and trade associations to shape the regulatory agenda and strengthen our relationships. Through our events and efforts we bring professionals from all sectors together – (foreign) banks, lawyers, regulators, practitioners – allowing them to network and gain valuable insights e.g. on the Dutch legal and fiscal framework. Together with our partners, we organize monthly workshops and networking events to discuss industry topics with prominent speakers. We also host the FBA's annual General Meeting, social events and the annual Regulatory Update meeting organized by the Dutch Central Bank (DNB).
